

ARIZONA CONSERVATION CORP

Agency: AZ Conservation Corp

Grant Writer: AZ Conservation Corp

Grants: #559314 (1994)

Project Description:

The Arizona Conservation Corps Recreational Program is a cooperative partnership of the Arizona Conservation Corps, Arizona State Parks, and other agencies which will establish a new youth development program, forming a specialized corps of young adults called the Trail Ranger Corps. These highly trained and mobile back country crews will construct and sign OHV trails, build OHV recreational facilities, and inventory OHV sites and trail routes throughout Arizona utilizing the Global Positioning System (GPS). The pilot project will result in developing GPS maps for the Lake Pleasant Resource Conservation Area (BLM OHV pilot project #559302) and Goldwater Air Force Range. This project will also produce a recreation resource guide and route signage for the Goldwater Air Force Range.

Grant amount \$400,000.
